

Introduction

The Michigan Family Planning Medical Advisory Committee has developed, reviewed and approved the following contraceptive clinical guidelines. Family Planning agencies are NOT required to implement the MDCH Family Planning Clinical Guidelines. The clinical guidelines are to serve as samples that family planning agencies may voluntarily choose to use and/or adapt. The guidelines were developed using the World Health Organization (WHO) Medical Eligibility Criteria for Contraceptive Use, 3rd edition, 2004, and the manufacture labeling insert as approved by the FDA.
